- Experience in a manufacturing environment 2 or more years is a plus
- Perform necessary pre-operation activities to ensure proper equipment startup and operation on multiple pieces of equipment
- Operate/monitor multiple pieces of equipment during operation to ensure quality production and minimal unplanned stops
- Communicate with team members and support teams to ensure continuous production of the correct product at high quality levels with minimal wasted time and materials
- General 5S and Housekeeping

### **Employer Description**

Baker Rullman manufacturing, Inc., designs and fabricates corrugated, bolt together, rectangular load-out bins, bulk storage bins, for agricultural and industrial markets, as well as seed corn and soybean drying systems. We pride ourselves in not only high-quality construction at competitive prices, but also engineering safe structures that conform to today's regulations for seismic and wind loads. These bins are very often used in feed and seed mills which Baker Rullman also designs and has a global track record of success.

In addition to corrugated bins and mills, Baker Rullman also designs and builds complete rotary dryer dehydration systems which are used to dry fruit and vegetable waste, distillers' grains, municipal sludge, manures, wood derivatives, and livestock by products.
