Employer Description

Baker Rullman manufacturing, Inc., designs and fabricates corrugated, bolt together, rectangular load-out bins, bulk storage bins, for agricultural and industrial markets, as well as seed corn and soybean drying systems. We pride ourselves in not only high-quality construction at competitive prices, but also engineering safe structures that conform to today's regulations for seismic and wind loads. These bins are very often used in feed and seed mills which Baker Rullman also designs and has a global track record of success.

In addition to corrugated bins and mills, Baker Rullman also designs and builds complete rotary dryer dehydration systems which are used to dry fruit and vegetable waste, distillers' grains, municipal sludge, manures, wood derivatives, and livestock by products.

Job Qualifications

- High School diploma/GED required
- 2 or more year's experience working in a warehouse/manufacturing setting preferred
- Strong work ethic and organizational skills
- Able to multi-task in a fast-paced environment
- Capable of lifting 50 pounds unassisted
- Able to work on feet for extended periods of time
- Teamwork

Benefits

Baker Rullman offers a full suite of employee benefits such as PTO, Health Insurance, Dental and Vision coverage, as well as 401k and performance bonuses.
